Dear Mr. Hedberg:

On April 19, 1993, Rody Cox and Nancy DeMille of my staff met with Russell Dobson, Dave Krohn and Bob Robinson of Continental Lime at the Cricket Mtn. Mine. During this meeting, Bureau of Land Management (BLM) reclamation requirements for the road from the plant to the quarry were discussed.

After a review of the case file, a letter dated April 7, 1989, from the BLM to the Utah Division of Oil, Gas and Mining (UDOGM) was found, stating the BLM agreed the road from the plant to the quarry should be left as it is when Continental Lime ceases operations. A copy of this letter is enclosed for your files.

Should you have questions regarding this letter, please call Rody Cox at (801) 743-6811.

Sincerely,

Dave Henderson  
Area Manager

Dear Mr. Braxton:

This letter is in reference to Continental Lime Company's reclamation variance proposal.

It is our recommendation that the highwalls be blasted and contoured so as to eliminate any human and wildlife hazards. All other roads within the quarry complex should be reclaimed. We are in agreement that the road from the plant to the quarry should be left as it is when Continental Lime ceases to operate.

Sincerely,
